DESCRIPTION

Stool designed within the Hochschule für Gestaltung Ulm, based on the model developed in 1954 by Max Bill with Hans Gugelot and Paul Hildinger. This rationalised version was produced from 1962 in the HfG Ulm workshops.

Made of chipboard panels with turned wood crossbars, it could be used as a seat, side table or occasional storage element. Its simple and economical construction directly reflects the functional principles taught at Ulm.

Manufacturer: HfG Ulm, circa 1962.
