

Opaline glass cylindrical pendant light, 1960s

€350

REF: 7970

Height: 36 cm (14.2")

Diameter: 20 cm (7.9")

DESCRIPTION

Conical opaline glass pendant light, 1960s.

The satin white glass diffuser is held by an internal metal tripod structure visible at the top, a characteristic detail of the period. This construction allows for an even light diffusion while revealing a technical aspect of the design.

France, 1960s.
