DESCRIPTION

A rare child-sized version of the desk designed by Alain Richard, produced by T.F.M. and developed within the A.R.C. - Mobilier National programs.

The white laminate panel structure with black framing features a top set within rounded aluminium corners, along with a suspended side unit with two yellow laminate drawers. This graphic contrast creates a clear and dynamic composition, bringing a lively touch well suited to a children's interior.

Manufacturer: T.F.M France, circa 1974.
