"Flumen, Latin for river, is inspired by the foreshore of the Thames and the shapes created in the mud as the tide recedes.
The title hints at the river's long history and its Roman past, while also acknowledging something much older and more elemental. The Thames has witnessed centuries of human activity, yet continues to move, change and reshape the landscape.
I am fascinated by these traces left by the water: fleeting marks that speak of something ancient, constantly in motion."
